

INFORMATION OF THE RESEARCH PARTICIPANT

File Number at CISSS de Laval:

Last Name:

First Name

TRIAGE OF RESEARCH PARTICIPANTS

Ask the research participant the following questions:

- Did you receive a COVID-19 (+) result for which you are still observing isolation measures?
- Have you taken a COVID-19 screening test for which you are awaiting the result?
- Have you had a close contact (contact < 2 m for 10 minutes or more) with a person tested COVID-19 (+) or under investigation for COVID-19 (screening done and result to come)?
- Do you have symptoms of COVID-19?

1 out of the following symptoms:

- Fever (temperature > 38°C or 100.04°F)
- New cough or worsening of chronic cough
- Difficulty breathing
- Sudden loss of sense of smell without nasal congestion, with or without loss of taste

2 out of the following symptoms:

- Sore throat
- Diarrhea
- One general symptom: aching muscles, headaches, intense fatigue or major loss of appetite

IPC MEASURES TO BE RESPECTED BY THE RESEARCH PARTICIPANT

- Hand hygiene when entering and exiting the facility and the user's room.
- **Wearing a mask at all times** (face cover or personal fabric mask accepted with the exception of users coming to an urgent appointment and who answered yes during triage: wearing of the procedure mask)
- Restrict moving around in the hospital.
- Use of washrooms allowed on the ground floor only.
- Respect of additional precautions in place.
